ENGLISH	B2	B2	B2	B1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

ADDITIONAL INFORMATION

PROJECTS

03/07/2023 – 10/08/2023
Portfolio WebSite Built a responsive portfolio website using C#, Splide Carousel, and CSS media queries, with good coding practices such as modularity, comments, and error handling.

Link https://nikolozportfolio.netlify.app/index.html

05/05/2023 – 11/06/2023
LinkTree Built a responsive ASP.NET web application with a SQL Server-connected API for a mobile app that allows users to type and package their social media links and send them to others. The app uses JWT authentication to secure user data.

Links https://linktreedemo.netlify.app/ | https://github.com/whosNikoloz/LinkTree

01/12/2022 – 19/02/2023
OPizza Built a fullstack web application that allows users to order pizzas from a virtual restaurant. The app is built with ASP.NET MVC and uses a RESTful API to connect to a MySQL database.

04/09/2023 – CURRENT
EduSpace Building a responsive learning website using React and Next.js, where students can learn programming languages at their own pace, interact with each other on a social page, and post and answer questions.

03/08/2023 – CURRENT
EduSpaceAPI Developed an ASP.NET Web API project focused on user authentication, lesson API operations, and CRUD functionalities. Engineered a progress controller to track user advancement and created a social controller for a Facebook-like feed, enabling users to post and comment within the application.
